zSERVICES

Systems Performance Tuning & Capacity Planning Expertise

- ⚙ Our service consists of **advanced systems performance tuning, capacity planning assessment** and understanding **different IBM Software Pricing Models** to **ensure your mainframe is leveraged in a most cost effective manner.**
- ⚙ Includes **PR/SM Weighting Factor & Logical CP Configuration optimization** and further **consulting** to help fill any customer's shortfall in expertise.
- ⚙ We analyze your systems using a **subset of standard RMF/SMF data.**

2

zWORKLOAD REPORTER

Cloud Reporting Portal

- ⚙ Over **700+ pre-defined reports & graphs** to help you with **MSU MLC Optimization and Cost Reduction.**
- ⚙ Helps reporting **Mainframe WLM Performance Tuning, zIIP Utilization, PR/SM Weighting Factor and Logical CP Configuration.**
- ⚙ Ensures that **critical business workloads are protected** during peak periods and peak season.

3

zGUARD

On-Premise Real Time Dashboard Grafana Monitor

- ⚙ Offers **Alerting, Scripting, APIs**, centralized operations and automated intelligent **LPAR HMC Configuration optimization capabilities.**
- ⚙ For IBM Sub-Capacity Pricing Model, zGuard provides an automated method for ongoing MSU reduction that will **result in MSU MLC Cost Savings.**
